

CLSSettlement Investment Managers

Mitigate settlement risk for your FX trades while benefiting from operational efficiencies, in addition to best-in-class netting and liquidity management. Our world-class payment-versus-payment settlement service delivers huge efficiencies and savings for our clients.

Our world-leading FX settlement service is available both directly, to settlement members, and indirectly, to third-party participants. Over 75 of the world's most important financial institutions choose to be settlement members of CLSSettlement – and over 38,000 more use our service, including banks, funds, non-bank financial institutions and multinational corporations.

Reduce risk and improve efficiency

Over 500 investment managers are directing CLSSettlement to settle FX transactions for over 37,000 funds. Each fund is protected from the most significant risk associated with currency trading: settlement risk. This is the risk that one party to an FX transaction delivers the currency it sold, but does not receive the currency it bought from its counterparty, resulting in a loss of principal.

How we mitigate settlement risk

We mitigate settlement risk by simultaneously settling the payments on both sides of an FX trade. We do this using our unique PvP settlement service which is linked to the real-time gross settlement (RTGS) systems of the 18 currencies eligible for CLSSettlement. The settlement of these payment instructions is final and irrevocable.

Investment managers are directing their funds to our multicurrency cash settlement service via their custodians. Custodians then connect investment managers to CLSSettlement, enabling them to submit trades and see real-time trade status information. The custodians also process all of the payment instructions and funding on behalf of their customers.

75+
settlement members

38,000+
participants around the world use our services indirectly through our settlement members

Systemically important financial market infrastructure critical to the orderly functioning of the global FX market

7+ trillion
average settled each day

18
of the most actively traded currencies globally¹

¹ Australian dollar, Canadian dollar, Danish krone, euro, Hong Kong dollar, Hungarian forint, Israeli shekel, Japanese yen, Korean won, Mexican peso, New Zealand dollar, Norwegian krone, Singapore dollar, South African rand, Swedish krona, Swiss franc, UK pound sterling and US dollar.

Awards

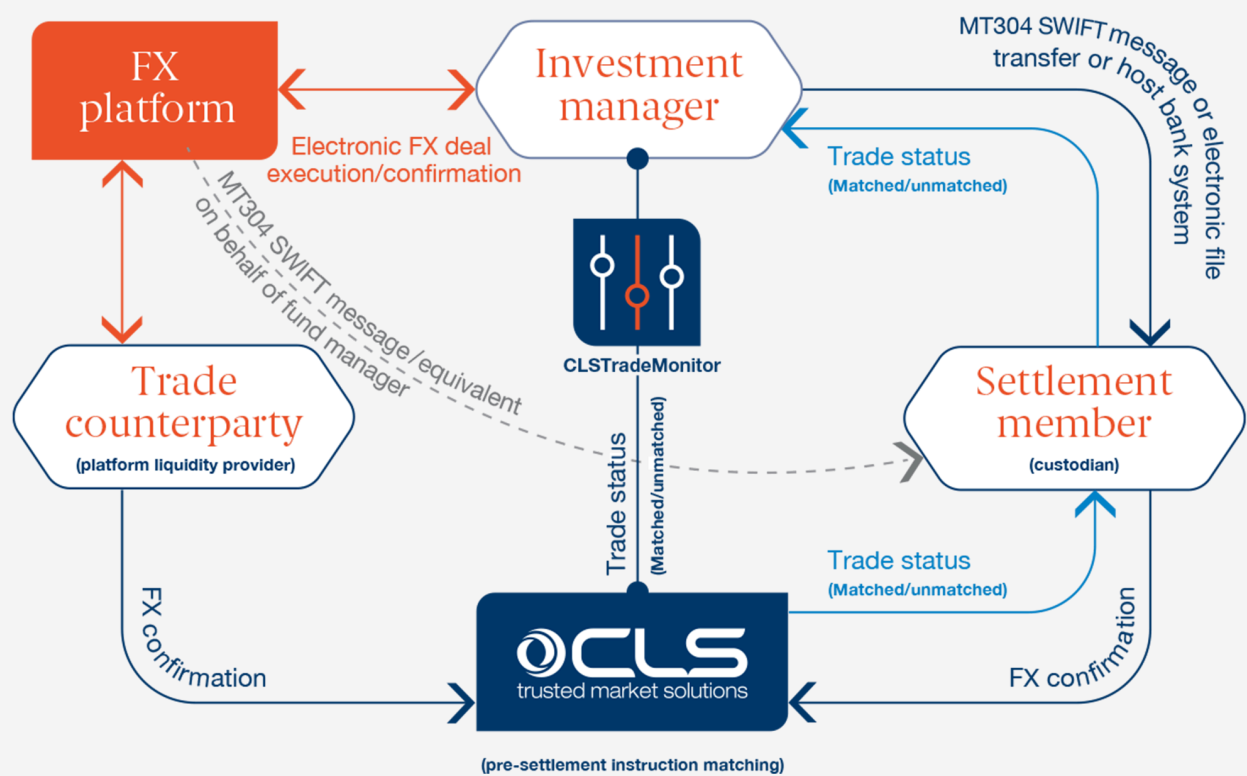

- Euromoney / Best Clearing and Settlement Provider 2024 / 2023
- FX Markets e-FX / Best Settlement Initiative 2023

Benefits:

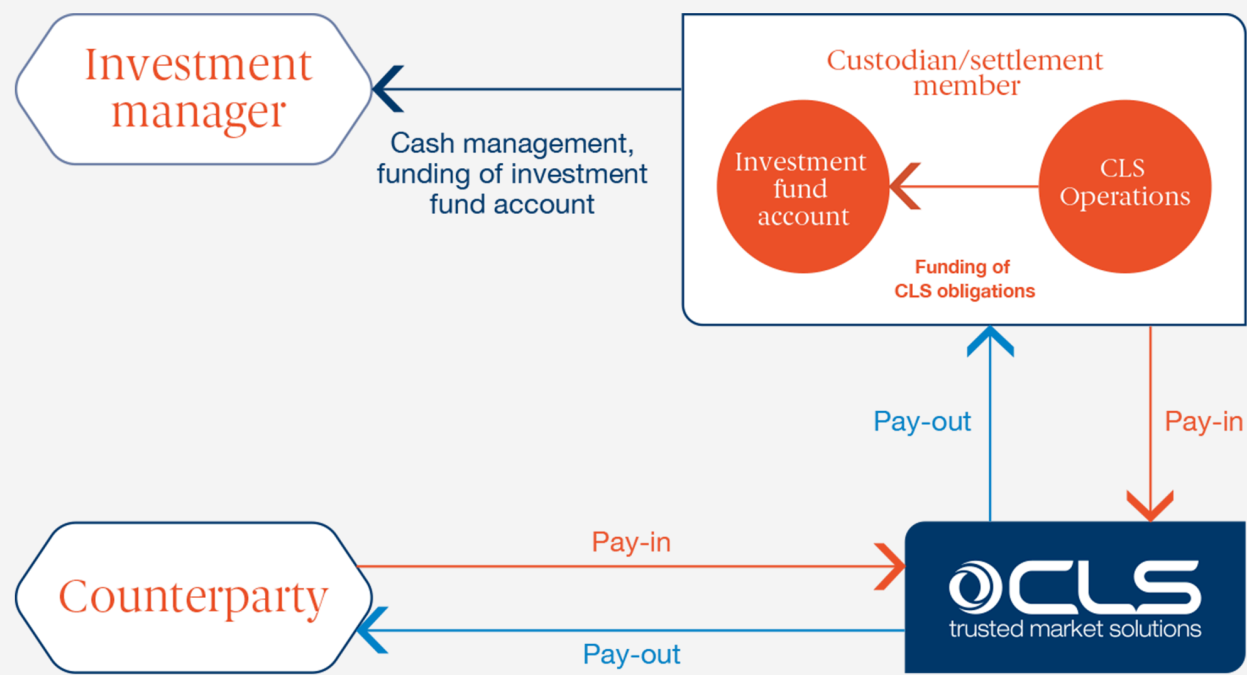

- Settlement risk mitigation through payment-versus-payment (PvP) settlement leading to:
 - Credit efficiencies
 - An expanded range of counterparties
 - Increased trading opportunities
- Operational risk efficiencies; straight-through processing
- Matching/confirmation of trade instructions in real-time
- Active management of the settlement process: real-time reporting and visibility throughout the trade lifecycle
- The potential benefit of payment netting if offered by the custodian
